The CurQD® Protocol

*The #1 effective natural
treatment for IBD**

**As professed by Israeli IBD experts;
National survey, May 2022*

Natural. Evidence-Based. Tailored to You.

CurQD® contains nutraceuticals that activate the *Aryl Hydrocarbon Receptor* (AhR) pathway, found in clinical trials to rapidly counter proinflammatory signals and promote mucosal healing.

Rich in anti-inflammatory agents, CurQD® is reported to regulate mucosal immune homeostasis in IBD patients without immune suppression, promoting intestinal health and fast relief.

We understand that no two cases are the same, which is why we tailor CurQD® to each individual patient.

"So glad I found this. I started it on a Monday, and by Friday my symptoms already started to disappear. This literally saved the day!"

-Alexa H.

"It's been amazing. My bleeding totally stopped, my cramping. I'm 90% back to what I was before, and I'm really grateful. It really works!"

-Rodrigo V.

"My quality of life having Ulcerative Colitis has just dramatically improved. I have so much more confidence in my body and in myself and I feel so much better."

-Lucy S

"I've done the typical regimen over the past 19 and a half years of having Crohn's Disease and nothing has worked quite like this supplement."

-Heidi D.
